Anodyne; Sulph. and Act. Morphine; Act. Plumbi; Sulph. No produce has been, or can be, received from above tide-water until we have considerable rain. For the last two weeks it has been remarkably warm and dry, and business of every description has also been remarkably dull. This merning it is cool and dry, with a north wind. The Cape Fear is so low tow with mercandize. A revival in mercantile business cannot be expected until we have rain enough to raise the streams o as to enable produce to reach our market. The season has een generally dry-more so, we think than for several years. Our remarks below, on the state of the market, will be found as correct as we are enabled to make them from a daily observation of transactions.

Aperient: Farrants Ext. Cubes and coparia: Fees, Deckwith's, Clickener's, Brandreth's, House's, Lee's, Spencer's, With's, Clickener's, Brandreth's, House's, Lee's, Spencer's, Wistar's, Scott's, Anderson's, Keeler's, Hull's, Wright's, Tyler's, Moffatt's, and Leidy's PILLS, &c. &c.

THE undersigned continues to hold the Agency in Wilmington and vicinity, of the North Carolina Mutua! Fire Insurance Company. This Company now has a capital of over Five Hundred Thousand Dollars, in premium notes, secured by mortgage liens on real estate, and suret es. The capital is constantly increasing. The small proportion of money required by this Company, on the amounts of premium (only 10 per cent on a five year's policy, and S per cent on a year's policy) makes it a most desirable one for persons to have their property insured in. To this may be added the consideration that it is a home institution—controlled by and benefiting none but citizens of the State. Applications for risks on property lying in this or the adcining counties, where the undersigned cannot conveniently make a survey, may be made by letter. Blank forms of application will be furnished by the Agent when requested. All property in Wilmington and its immediate vicinity on which insurance is desired will be surveyed by the Agent A. A.
